

OsmoGSMTester - Bug #2258

jenkins.osmocom.org's build slave link to the osmo-gsm-tester-rnd setup fails "half" of the time

05/15/2017 05:56 PM - neels

Status: Closed	Start date: 05/15/2017
Priority: Urgent	Due date:
Assignee: sysmocom	% Done: 0%
Category:	Estimated time: 0.00 hour
Target version:	
Spec Reference:	
Description It seems that the link between jenkins.osmocom.org and the sysmocom office is unreliable. Test runs abort halfway through with some java exceptions coming from the build slave connection. e.g. http://jenkins.osmocom.org/jenkins/view/osmo-gsm-tester/job/osmo-gsm-tester_run/47/console More or less half of the test runs fail because of this.

History

#1 - 05/15/2017 05:57 PM - neels

- Subject changed from jenkins.osmocom.org's build slave on the osmo-gsm-tester fails "half" of the time to jenkins.osmocom.org's build slave link to the osmo-gsm-tester-rnd setup fails "half" of the time

#2 - 05/24/2017 01:53 PM - neels

(this is discussed on the sysmocom internal issue #3601)

#3 - 05/30/2017 09:39 AM - pespin

It seems the connection is more robust after VPN changes done lately. @Neels I think you use jenkins to run tests more than I do, can we mark the issue as resolved?

#4 - 05/30/2017 12:01 PM - neels

- Status changed from New to Resolved

An OpenVPN downgrade has made the link highly stable.
