

OsmoGSMTester - Bug #2463

Add doc on dependencies needed for the jenkins slave running osmo-gsm-tester-gerrit job

08/25/2017 12:09 PM - pespin

Status:	New	Start date:	08/25/2017
Priority:	Normal	Due date:	
Assignee:	pespin	% Done:	0%
Category:			
Target version:			
Spec Reference:			
Description			
A new jenkins slave was recently added and job checking osmo-gsm-tester commits in gerrit (osmo-gsm-tester-gerrit) is failing because it's missing some python yaml module installed.			
We should add documentation on what needs to be installed in he jenkins slave in order to be able to run that job in here: https://osmocom.org/projects/osmocom-servers/wiki/Jenkins_Node_Setup			
Maybe take the time too to check that all dependencies are well described in README in osmo-gsm-tester repo as well as in the osmo-gsm-manuals repo.			
Affected build node: build2-deb8build

- Related to Feature #2748: prod env: Update PROD main unit to debian 9 (with ansible) added

#4 - 02/07/2018 05:00 PM - pespin

prod node has been setup using ansible by lynxis. We should update the osmo-gsm-tester documentation to point to it and explain it can be used to set up (mostly) everything.

#5 - 04/10/2018 01:39 PM - lynxis

I've added some lines to https://osmocom.org/projects/osmocom-servers/wiki/Jenkins_Node_Setup_ansible

#6 - 04/10/2018 02:06 PM - pespin

TODO: update osmo-gsm-tester manual to point to inform about this new procedure to setup a node. We can probably drop the list of dependencies there and refer to looking at the ansible scripts. Only leave there the manual work required.

#7 - 04/10/2018 02:08 PM - lynxis
