

OsmoTRX - Bug #2600

OsmoTRX is still full of confusing references to OpenBTS

10/28/2017 03:57 PM - laforge

Status:	Resolved	Start date:	10/28/2017
Priority:	Normal	Due date:	
Assignee:	msuraev	% Done:	100%
Category:			
Target version:			
Spec Reference:			
Description			
The OsmoTRX code was forked off the OpenBTS Transceiver code. There is nothing secret about that. However, we should clearly document this in the COPYING, INSTALLATION and LEGAL text files in osmo-trx.git to avoid any confusion			

History

#1 - 01/04/2018 10:50 AM - laforge

- Assignee set to msuraev

#2 - 01/04/2018 01:34 PM - msuraev

- Status changed from New to In Progress

- % Done changed from 0 to 30

Corresponding updates were sent in gerrit 5642, 5644-5646: it's split over separate commits to simplify review and further updates as I'm not 100% sure how to update legalieze properly.

#3 - 01/04/2018 01:34 PM - msuraev

- Subject changed from OsmoTRX is still full of confusing references to OpenBTSb to OsmoTRX is still full of confusing references to OpenBTS

#4 - 01/05/2018 10:24 AM - msuraev

- Status changed from In Progress to Resolved

- % Done changed from 30 to 100

All patches were merged, the only remaining OpenBTS in text files are necessary historic references. It's also mentioned in test and logging code. The latter will be removed once we're converted to libosmocore logging but that's subject for another ticket.
