- File bsc\_subscr\_conn\_fsm.c\_gscon\_fsm\_SUBSCR\_CONN.dot.png added

**#9 - 03/26/2018 10:10 AM - dexter**

- Status changed from New to In Progress

- % Done changed from 0 to 100

I have checked this back:

ERROR: gscon\_fsm\_active() triggers a transition to ST\_ACTIVE, but this is not allowed by the FSM definition  
I have removed the transition, since we are already in ST\_ACTIVE we do not have to change.

ERROR: gscon\_fsm\_wait\_ho\_compl() triggers a transition to ST\_CLEARING, but this is not allowed by the FSM definition  
I have added ST\_CLEARING now to the out\_state\_mask since we have to clear when the handover fails.

Here is a patch to fix the problem:

<https://gerrit.osmocom.org/7501> gscon: fix illegal state transitions

**#10 - 03/26/2018 01:58 PM - dexter**

- Status changed from In Progress to Resolved
