

Cellular Network Infrastructure - Bug #3167

Build osmo-*-master docker containers with address sanitizer

04/14/2018 12:47 PM - laforge

Status: New	Start date: 04/14/2018
Priority: Low	Due date:
Assignee: osmith	% Done: 0%
Category:	
Target version:	
Spec Reference:	
Description In order to catch use-after-free and similar bugs during TTCN-3 test execution, it would be great if we'd modify the docker-playground/osmo-*-master containers to build with asan enabled. We'd of course have to capture the stderr output of the related processes somehow into jenkins (e.g. as artefacts) to reap the benefits from this.
