<b>Description</b>	
There's an issue-tracker integration plugin for gerrit available from <a href="https://github.com/cyrilix/its-redmine">https://github.com/cyrilix/its-redmine</a> - but unfortunately it seems to be outdated/unmaintained (no commits for 4 years) and other people seem to have trouble to install it ( <a href="https://github.com/cyrilix/its-redmine/issues/1">https://github.com/cyrilix/its-redmine/issues/1</a> )	
it would be great to revive this and add it to gerrit.osmocom.org.	

### History

I e-mailed the author of the plugin and asked if he's available to do some contracting on forward-porting the plugin to recent gerrit + redmine.
