<b>Target version:</b>			

#### Description

Seen on testing bscnat with current master of openbsc and dependencies as of today:

```
<0015> openbsc/openbsc/src/osmo-bsc_nat/bsc_nat.c:858 MSG from MSC(main MSC): 00 20 fd 09 00 03 07
0b 04 43 11 00 fe 04 43 5c 00 fe 10 00 0e 52 08 08 39 11 84 20 28 42 87 77 1a 01 06 proto: 9
<0015> openbsc/openbsc/src/osmo-bsc_nat/bsc_filter.c:209 Whitelisted with rule 0
<0015> /openbsc/openbsc/src/osmo-bsc_nat/bsc_nat.c:618 Could not parse paging message: -3
```

Let's investigate what this message is and implement it or provide better error log.

#### History

##### #1 - 06/28/2018 03:25 PM - pespin

- Status changed from *New* to *Feedback*
- % Done changed from 0 to 90

Should be addressed by patch <https://gerrit.osmocom.org/#/c/openbsc/+9776/>

It now forwards the paging command (BSS) to all BSCs under the BSC-NAT instead of printing an error and dropping the paging message.

##### #2 - 07/02/2018 10:07 AM - pespin

- Status changed from *Feedback* to *Resolved*
- % Done changed from 90 to 100

Merged, closing.
