Target version:	
Spec Reference:	
Description	
The support for sysmosim-gr1 is currently broken, but the state at commit 9977c86e96fc64f891fc06ade8e8cba3b1472b1b seems to work fine. Lets fix this and crate .ok and .data files for the jenkins test	

History

#1 - 08/23/2018 08:48 AM - dexter

- Status changed from New to In Progress

- % Done changed from 0 to 100

I have re-tested the support for sysmosim-gr1 this morning and it worked, apparently the problem vanished.

Now I have added a test and fixed the remaining issues for sysmosim-gr1 so we can add one to our sim-tester setup:

<https://gerrit.osmocom.org/#/c/pysim/+/10570> cards: autodetect sysmosim-gr1

<https://gerrit.osmocom.org/#/c/pysim/+/10571> cards: do not feed ascii as adm for sysmosim-gr1

<https://gerrit.osmocom.org/#/c/pysim/+/10572> tests: add example file for sysmosim-gr1

#2 - 08/27/2018 09:02 AM - dexter

- Status changed from In Progress to Resolved

The related patches are merged, the simtester now also has one of the gr1 cards added.
