Description	
<p>I was writing a general Wireshark wiki page today, based on the hand full existing pages that were already in the wiki. One of them is this one, which describes the out-of-tree P25 wireshark plugin.</p> <p>The build instructions are outdated, and I could not find the source code to the plugin (page still refers to the obsolete svn location). So I think it would be good to answer these questions in the wiki page:</p> <ul style="list-style-type: none">• is the plugin upstreamed already or is anyone working on it?• where is the source code? <p>See also:</p> <ul style="list-style-type: none">• https://wiki.wireshark.org/P25 (which says the plugin is out of tree, pointing at osmocom)
