

## gr-osmosdr - Bug #3593

### rtl: 'len' argument ignored in librtlsdr callback

09/25/2018 03:57 PM - xloem

|  |                               |
|--|-------------------------------|
| <b>Status:</b> New   | <b>Start date:</b> 09/25/2018 |
| <b>Priority:</b> Low   | <b>Due date:</b>              |
| <b>Assignee:</b>   | <b>% Done:</b> 0%             |
| <b>Category:</b>   |                               |
| <b>Target version:</b>   |                               |
| <b>Description</b>   |                               |
| The libusb documentation specifies that the callback may be provided a length shorter than the buffersize, but the gr-osmosdr implementation ignores the length and assumes it is the buffersize.          |                               |
| Patch at <a href="http://lists.osmocom.org/pipermail/osmocom-sdr/2018-September/001833.html">http://lists.osmocom.org/pipermail/osmocom-sdr/2018-September/001833.html</a> to store and use these lengths. |                               |
