

rtl-sdr - Bug #3946

Nightly builds for windows (rtl-sdr/osmo-fl2k) not beeing updated

04/21/2019 08:22 PM - roox

Status:	Resolved	Start date:	04/21/2019
Priority:	Normal	Due date:	
Assignee:	laforge	% Done:	100%
Category:			
Target version:			
Spec Reference:			
Description			
The binaries at http://ftp.osmocom.org/binaries/windows were last built in may 2018 !			
Currently Jenkins job "Osmocom-OBS_MinGW_nightly_publish" downloads and packages the windows binaries for rtl_sdr and just fine but then fails in the last stage while trying to copy the generated files over to ftp.osmocom.org			
Not sure whats causing this - maybe some change in the infrastructure back then ?

- % Done changed from 0 to 100

I've fixed the host name + host key verification related problems and enabled a once-per-week schedule. This means also it's no longer called 'nightly' but 'weekly':

https://jenkins.osmocom.org/jenkins/job/Osmocom-OBS_MinGW_weekly_publish/
