

OsmoBTS - Bug #4031

OML part of BTS has no TTCN-3 tests

05/29/2019 02:15 PM - laforge

Status: New	Start date: 05/29/2019
Priority: Normal	Due date:
Assignee:	% Done: 20%
Category: Abis	
Target version:	
Spec Reference:	
Description While the RSL part of OsmoBTS has pretty good TTCN-3 test coverage, the OML part doesn't really have any [direct] testing. We always use OsmoBSC to initialize OML of the BTS instead. That was good to get the RSL tests going, but we need actual OML test coverage.
