Description			
<p>For Gnuradio, Device Arguments that are set in osmocom Sink or Source are not executed. As far as I understand the code, these arguments are ignored in sink_impl.cc and source_impl.cc.</p> <p>A patch, the only addresses the bladeRF micro, can be found here: https://github.com/Lukeekul/gr-osmosdr/commit/20d1a3618b9e81975d55b05e6f98d969db755aaf</p> <p>Regards, lukeekul</p>
