

libosmo-ranap - Feature #4143

Security Mode Command needs distinct UEA1 and UEA2 options

08/06/2019 12:58 PM - neels

Status: New	Start date: 08/06/2019
Priority: Normal	Due date:
Assignee:	% Done: 0%
Category:	
Target version:	
Spec Reference:	
Description ranap_new_msg_sec_mod_cmd() always enables both UEA1 and UEA2. To provide proper UTRAN encryption configuration, there should be ways to enable/disable these separately.
