

## OsmoSGSN - Bug #43

### Destroying LLC-LLE after a GPRS Routing Area Update Reject

02/19/2016 10:47 PM - zecke2

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	dexter	<b>% Done:</b>	0%
<b>Category:</b>			
<b>Target version:</b>			
<b>Spec Reference:</b>			
<b>Description</b>			
<p>Right now we allocate the LLC-LLE ad-hoc but it will stay allocated even after we have RAU-Rejected the subscriber and he will not be back with the same P-TMSI. We need a way to delete the LLC-LLE in this case.</p> <p>Harald's proposal was to use/queue primitives. For the above case we would send a XID, queue the reject and the destroying of the LLC-LLE context.</p>
