IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, DO NOT INSTALL OR USE THE SOFTWARE. PROMPTLY RETURN, WITHIN 15 DAYS, THE SOFTWARE, ALL RELATED DOCUMENTATION AND ACCOMPANYING ITEMS TO THE PLACE OF ACQUISITION FOR A REFUND.

This is a legal agreement between you and Creative Technology Ltd. and its subsidiaries (“Creative”). This Agreement states the terms and conditions upon which Creative offers to license the software sealed in the disk package together with all related documentation and accompanying items including, but not limited to, the executable programs, drivers, libraries and data files associated with such programs (collectively, the “Software”).

LICENSE

1. Grant of License
The Software is licensed, not sold, to you for use only under the terms of this Agreement. You own the disk or other media on which the Software is originally or subsequently recorded or fixed; but, as between you and Creative (and, to the extent applicable, its licensors), Creative retains all title to and ownership of the Software and reserves all rights not expressly granted to you.

The license under this Section 1 is conditioned upon your compliance with all of your obligations under this Agreement. Creative grants to you the right to use all or a portion of this Software provided that:
(a) the Software is not distributed for profit;
(b) the Software is used only in conjunction with Creative’s family of products;
(c) the Software may NOT be modified;
(d) all copyright notices are maintained on the Software; and
(e) The licensee/end-user agrees to be bound by the terms of this agreement

2. For Use on a Single Computer
The Software may be used only on a single computer by a single user at any time. You may transfer the machine-readable portion of the Software from one computer to another computer, provided that (a) the Software (including any portion or copy thereof) is erased from the first computer and (b) there is no possibility that the Software will be used on more than one computer at a time.

3. Stand-Alone Basis
You may use the Software only on a stand-alone basis, such that the Software and the functions it provides are accessible only to persons who are physically present at the location of the computer on which the Software is loaded. You may not allow the Software or its functions to be accessed remotely, or transmit all or any portion of the Software through any network or communication line.

4. Copyright
The Software is owned by Creative and/or its licensors and is protected by United States copyright laws and international treaty provisions. You may not remove the copyright notice from any copy of the Software or any copy of the written materials, if any, accompanying the Software.

5. One Archival Copy
You may make one (1) archival copy of the machine-readable portion of the Software for backup purposes only in support of your use of the Software on a single computer, provided that you reproduce on the copy all copyright and other proprietary rights notices included on the originals of the Software.

6. No Merger or Integration
You may not merge any portion of the Software into, or integrate any portion of the Software with, any other program, except to the extent expressly permitted by the laws of the jurisdiction where you are located. Any portion of the Software merged into or integrated with another program, if any, will continue to be subject to the terms and conditions of this Agreement, and you must reproduce on the merged or integrated portion all copyright and other proprietary rights notices included in the originals of the Software.

7. Network Version
If you have purchased a “network” version of the Software, this Agreement applies to the installation of the Software on a single “file server”. It may not be copied onto multiple systems. Each “node” connected to the “file server” must also have its own license of a “node copy” of the Software, which becomes a license only for that specific “node”.

8. Transfer of License
You may transfer your license of the Software, provided that (a) you transfer all portions of the Software or copies thereof, (b) you do not retain any portion of the Software or any copy thereof, and (c) the transferee reads and agrees to be bound by the terms and conditions of this Agreement.
9. Limitations on Using, Copying, and Modifying the Software

Except to the extent expressly permitted by this Agreement or by the laws of the jurisdiction where you acquired the Software, you may not use, copy or modify the Software. Nor may you sub-license any of your rights under this Agreement. You may use the software for your personal use only, and not for public performance or for the creation of publicly displayed videotapes.

10. Decompiling, Disassembling, or Reverse Engineering

You acknowledge that the Software contains trade secrets and other proprietary information of Creative and its licensors. Except to the extent expressly permitted by this Agreement or by the laws of the jurisdiction where you are located, you may not decompile, disassemble or otherwise reverse engineer the Software, or engage in any other activities to obtain underlying information that is not visible to the user in connection with normal use of the Software.

In particular, you agree not for any purpose to transmit the Software or display the Software’s object code on any computer screen or to make any hardcopy memory dumps of the Software’s object code. If you believe you require information related to the interoperability of the Software with other programs, you shall not decompile or disassemble the Software to obtain such information, and you agree to request such information from Creative at the address listed below. Upon receiving such a request, Creative shall determine whether you require such information for a legitimate purpose and, if so, Creative will provide such information to you within a reasonable time and on reasonable conditions.

In any event, you will notify Creative of any information derived from reverse engineering or such other activities, and the results thereof will constitute the confidential information of Creative that may be used only in connection with the Software.

The software from CDDB (the “CDDB Client”) enables the application to do online disc identification and obtain music-related information, including name, artist, track and title information (“CDDB Data”) from online servers (“CDDB Servers”) and to perform other functions.

You agree that you will use CDDB Data, the CDDB Client and CDDB Servers for your own personal non-commercial use only. You agree not to assign, copy, transfer or transmit the CDDB Client or any CDDB Data to any third party. YOU AGREE NOT TO USE OR EXPLOIT CDDB DATA, THE CDDB CLIENT OR CDDB SERVERS EXCEPT AS EXPRESSLY PERMITTED HEREIN.

You agree that your non-exclusive license to use the CDDB Data, the CDDB Client and CDDB Servers will terminate if you violate these restrictions. If your license terminates, you agree to cease any and all use of the CDDB Data, the CDDB Client and CDDB Servers, including all ownership rights.

You agree that CDDB, Inc. may enforce its rights under this Agreement against you directly in its own name.

The CDDB Client and each item of CDDB Data are licensed to you “AS IS.” CDDB makes no representations or warranties, express or implied, regarding the accuracy of any CDDB Data from in the CDDB Servers. CDDB reserves the right to delete data from the CDDB Servers or to change data categories for any cause that CDDB deems sufficient. No warranty is made that the CDDB Client or CDDB Servers are error-free or that functioning of CDDB Client or CDDB Servers will be uninterrupted. CDDB is not obligated to provide you with any new enhanced or additional data types or categories that CDDB may choose to provide in the future.

CDDB DISCLAIMS ALL WARRANTIES EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT. CDDB does not warrant the results that will be obtained by your use of the CDDB Client or any CDDB Server. IN NO CASE WILL CDDB BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES OR FOR ANY LOST PROFITS, OR LOST REVENUES. “CDDB, INC. D/B/A GRACENOTE IS A THIRD PARTY BENEFICIARY HEREUNDER AND MAY ENFORCE ITS RIGHTS AGAINST YOU TO THE SAME EXTENT AS IF IT WERE A PARTY TO THIS AGREEMENT”.

TERMINATION

The license granted to you is effective until terminated. You may terminate it at any time by returning the Software (including any portions or copies thereof) to Creative. The license will also terminate automatically without any notice from Creative if you fail to comply with any term or condition of this Agreement. You agree upon such termination to return the Software (including any portions or copies thereof) to Creative. Upon termination, Creative may also enforce any rights...
provided by law. The provisions of this Agreement that protect the proprietary rights of Creative will continue in force after termination.

LIMITED WARRANTY
Creative warrants, as the sole warranty, that the disks on which the Software is furnished will be free of defects, as set forth in the Warranty or User Guide included with the installation disk or package. No distributor, dealer or any other entity or person is authorized to expand or alter this warranty or any other provisions of this Agreement. Any representation, other than the warranties set forth in this Agreement, will not bind Creative.

Creative does not warrant that the functions contained in the Software will meet your requirements or that the operation of the Software will be uninterrupted, error-free or free from malicious code. For purposes of this paragraph, “malicious code” means any program code designed to contaminate other computer programs or computer data, consume computer resources, modify, destroy, record, or transmit data, or in some other fashion usurp the normal operation of the computer, computer system, or computer network, including viruses, Trojan horses, droppers, worms, logic bombs, and the like.

INDEMNIFICATION BY YOU
If you distribute the Software in violation of this Agreement, you hereby indemnify, hold harmless and defend Creative from and against any and all claims or lawsuits, including attorney’s fees and costs that arise, result from or are connected with the use or distribution of the Software in violation of this Agreement.

EXCEPT AS STATED ABOVE IN THIS AGREEMENT, THE SOFTWARE IS PROVIDED AS-IS WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NON-INFRINGEMENT. CREATIVE IS NOT OBLIGATED TO PROVIDE ANY UPDATES, UPGRADES OR TECHNICAL SUPPORT FOR THE SOFTWARE.

Further, Creative shall not be liable for the accuracy of any information provided by Creative or third party technical support personnel, or any damages caused, either directly or indirectly, by acts taken or omissions made by you as a result of such technical support.

You assume full responsibility for the selection of the Software to achieve your intended results, and for the installation, use and results obtained from the Software. You also assume the entire risk as it applies to the quality and performance of the Software. Should the Software prove defective, you (and not Creative, or its distributors or dealers) assume the entire cost of all necessary servicing, repair or correction.

This warranty gives you specific legal rights, and you may also have other rights which vary from country/state to country/state. Some countries/states do not allow the exclusion of implied warranties, so the above exclusion may not apply to you. Creative disclaims all warranties of any kind if the Software was customized, repackaged or altered in any way by any third party other than Creative.

IN NO EVENT WILL CREATIVE’S LIABILITY OR DAMAGES TO YOU OR ANY OTHER PERSON EVER EXCEED THE AMOUNT PAID BY YOU TO USE THE SOFTWARE, REGARDLESS OF THE FORM OF THE CLAIM.

Some countries/states do not allow the limitation or exclusion of liability for incidental or consequential damages, so the above limitation or exclusion may not apply to you.

PRODUCT RETURNS
If you must ship the Software to Creative or an authorized Creative distributor or dealer, you must prepay shipping and either insure the Software or assume all risk of loss or damage in transit.

Modem-on-Hold

This feature allows you to answer an incoming call even when you are surfing the Internet. Check with your local Internet Service Provider to ascertain that this feature is supported in your area.

Modem-on-Hold suspends the data connection between your modem and the ISP so that you can pick up your phone and receive an incoming call in the usual way, while surfing the Internet. When your call is complete, the modem reconnects you to the Internet. For more information on Modem-on-Hold, visit http://www.V92.com.

Modem-on-Hold
This feature allows you to answer an incoming call even when you are surfing the Internet. Check with your local Internet Service Provider to ascertain that this feature is supported in your area. For more details, see “About Your Modem” on page 1-1.

PCM Upstream
This feature enhances your Modem Blaster’s data upload speed from 33.6 Kbps to a maximum of 48 Kbps.

V.44 Data Compression
Your Modem Blaster incorporates the new V.92 standard. This new standard offers V.44 Data Compression technology that allows you to browse the Internet at higher speeds than existing data compression standards.

Troubleshooting
Troubleshooting

If you have a technical problem with this product, you may wish to consult our self-help tool “Knowledgebase” for on-line troubleshooting and solutions (www.europe.creative.com/support)

This appendix provides tips and solutions for resolving some of the problems you might encounter with Creative Modem Blaster V.92 External DE5721 either during installation or normal use.

Problems with Your Modem

The modem fails to accept commands to dial or answer a call.
There may be an improper telephone line connection.

Check the following:
- Make sure the telephone cable is attached to the Telephone Line Jack.
- Check that all devices are turned on.

There is interference on the telephone line that is connected to the modem.
To solve this problem:
Try moving the telephone line away from any power source, monitor, printer or any computer cable.

The modem cannot connect to the Internet at 56,000 bps.
This may be due to line conditions in your area. Due to FCC regulations and/or line conditions, it is not always possible to achieve the maximum data rate.
To solve this problem:
Try moving the telephone line away from any power source, monitor, printer or computer cable.
The modem or communications software fails to detect that the remote user has hung up.

The modem or communications software relies on the dial tone, busy tone or silence period to detect that a remote user has hung up. This detection may fail due to one of the following reasons:

- Your local telephone system does not generate the dial or busy tone when the remote user hangs up.
- The silent period for the modem or communications software to detect that the remote user has hung up is not long enough.
- The modem or communications software cannot detect a different dial or busy tone. For example, if you are connecting to a PABX system, the dial or busy tone generated is different from the usual dial or busy tone.

To solve this problem:

Prompt the remote user to respond. This may, however, result in a long delay before the communications software responds to the remote user hanging up. To minimize this delay, modify the following settings:

- Voice message recording time.
- Number of prompts.
- Time to wait for a response after prompting.

Resolving Hardware Conflicts

Hardware conflicts may occur when two or more peripheral devices are set to use the same I/O address, IRQ line or DMA channel.

To resolve conflicts in Windows 98SE, Windows 2000, Windows Me or Windows XP, change the resource settings of your modem or the conflicting peripheral device using Device Manager.
Resolving Conflicts in Windows 98SE/ME

To run Device Manager:
1. Click Start -> Settings -> Control Panel.
2. Click the System icon. The System Properties dialogue box appears.
3. Click the Device Manager tab.
4. Double-click Modem.
5. Select your modem and click the Properties button. The Properties dialogue box of the modem appears.
6. Click the Resources tab.
7. Click the Use Automatic Settings check box to select it. If this check box is already selected, you need to go to the Properties dialogue box of the conflicting peripheral device and select the same check box there.
8. Restart your system to allow Windows 98SE/Me to reassign resources to your modem and/or the conflicting peripheral device.

If you are unsure of which peripheral device is causing the conflict, you can isolate the source of the problem by temporarily removing all devices (except your modem and essential devices such as the disk controller). After that, add the devices back one at a time until the device that is causing the conflict is found.

Resolving Conflicts in Windows 2000/XP

To run Device Manager:
1. Click Start -> Settings -> Control Panel.
2. Click the System icon. The System Properties dialogue box appears.
3. Click the Hardware tab.
4. Click the Device Manager button.
5. Double-click Modem.
6. Click the name of your modem.
7. Right-click the name of your modem. A menu appears.
8. Select the Properties option.
9. Click the Resources tab.

Troubleshooting B-3
10. Click the **Use Automatic Settings** check box to select it. If this check box is already selected, you need to go to the **Properties** dialogue box of the conflicting peripheral device and select the same check box there.

11. Restart your system to allow Windows 2000/XP to reassign resources to your modem and/or the conflicting peripheral device.
