Spec Reference:			

Description

The request to configure most (or all?) NITB parameters not only by VTY but also via an external SNMP agent via the control interface has come up several times.

The control interface would have to be extended with all relevant (which are those?) parameters.

An external SNMP agent would have to be developed, attaching to the control interface. python snmp might be a good candidate as basis for that.

History

#1 - 11/17/2016 01:00 PM - msuraev

- Subject changed from *Extension of Control Interface / external SNMP agent* to *Extension of Control Interface / external SNMP agent*

SYS#3028 is probably required for this.

#2 - 12/10/2017 08:03 PM - laforge

- Project changed from *OsmonITB* to *Cellular Network Infrastructure*

#3 - 07/18/2019 05:22 AM - laforge

- Priority changed from *Normal* to *Low*
