

OsmoSMSC - Feature #1623

Configure delivery report for the SMPP delivery links

02/24/2016 01:49 PM - zecke

Status:	New	Start date:	02/24/2016
Priority:	Normal	Due date:	
Assignee:	zecke	% Done:	0%
Category:			
Target version:			
Spec Reference:			
Description			
In case SMPP is used as a delivery method it is not clear if the delivery is meant to be final and a delivery report should be created or if the final system will generate it. As part of the delivery method configuration one should be able to configure if a delivery report is created or not.
