

OsmoNITB - Feature #1647

New authorization policy "matching IMSI"

03/11/2016 09:22 AM - laforge

Status: Closed	Start date: 03/11/2016
Priority: High	Due date:
Assignee: laforge	% Done: 100%
Category:	
Target version:	
Spec Reference:	
Description Right now we can only operate in either <ul style="list-style-type: none">• completely open mode, accepting all subscribers• completely closed mode with only known subscribers We should add a new mode in-between, where a IMSI pre-fix (or even regex?) is used to determine if a subscriber is permitted to register to the network or not.
