

OpenBSC - Support #2363

migrate important branches from openbsc.git to new osmo-{msc,bsc,mgw,sgsn}.git

07/13/2017 11:55 AM - neels

Status:	New	Start date:	07/13/2017
Priority:	High	Due date:	
Assignee:	Osmocom Developers	% Done:	0%
Category:			
Target version:			
Resolution:		Spec Reference:	
Description			
Once the new osmo-{msc,bsc,mgw,sgsn}.git repositories are ready for active development use, take a look at all openbsc.git branches, and migrate active important ones over to the new repositories.			

History

#1 - 09/03/2017 09:04 AM - laforge

- Assignee set to neels

- Priority changed from Low to High

#2 - 09/03/2017 09:05 AM - laforge

- Assignee changed from neels to Osmocom Developers

assigning this to all developers so they can check for themselves.

#3 - 09/27/2017 10:24 PM - neels

asked (again?) <https://lists.osmocom.org/pipermail/openbsc/2017-September/011232.html>

#4 - 10/03/2017 08:50 PM - neels

so far, mailing list replies indicate these branches:

- laforge/bssgp_fc -> osmo-sgsn
- laforge/gprs-suspend -> osmo-bsc
- laforge/power_control -> osmo-bsc
- fairwaves/master-rebase

#5 - 09/12/2018 02:41 PM - neels

None of the above branches have been migrated.

[laforge](#), has anything changed about the importance of these branches?

- laforge/bssgp_fc -> osmo-sgsn
- laforge/gprs-suspend -> osmo-bsc
- laforge/power_control -> osmo-bsc

[ipse](#), do you have a plan / suggestion for getting your openbsc.git master-rebase work merged to the new repositories? There is a quite huge amount of patches on there, many of which seem to parallel developments that happened on the master branches...
