OsmoBSC - Bug #2767

OsmoBSC user manual doesn't specify how to configure M3UA link (asp/as)

12/17/2017 02:27 PM - lalforge

Status: Resolved
Priority: High
Assignee: neels
Category: A interface
Target version: 
Spec Reference: 

Description
there's no documentation in the manual on how to configure the local/remote port/ip for M3UA.

Looking at the documentation we have there is sigtran{-osmocom}.adoc in osmo-gsm-manuals. These files are used by the OsmoSTP user manual, but nowhere else.

While sigtran.adoc talks about SS7/SIGTRAN in general the documentation in sigtran-osmocom.adoc contains some information about the support in Osmocom. However, there are no sample config snippets that show how to connect an Osmocom application to SS7/SIGTRAN.

Going forward I'll update sigtran-osmocom.adoc with some configuration examples for SIGTRAN and then include that chapter in the relevant (BSC, MSC, SGSN, HNBGW) user manuals.
