

Osmocom.org Servers - Feature #3083

Feature # 3076 (Stalled): migrate to new (2018-03) server "host2.osmocom.org"

migrate trac to new server?

03/19/2018 06:55 PM - laforge

Status:	New	Start date:	03/19/2018
Priority:	Normal	Due date:	
Assignee:	laforge	% Done:	0%
Category:			
Target version:			
Spec Reference:			
Description			
This is actually more a question than a task.			
Should we put effort in migration / bringing that one up on the new host, or is it time to obsolete it?			

History

We wanted to publish the trac.db's at some point. Tnt has written rules to redirect most of it. Maybe make sure we can spawn it in a docker container and keep the container around (if we ever need the data).
