| <b>Category:</b> LimeSDR   |                               |
| <b>Target version:</b>   |                               |
| <b>Spec Reference:</b>   |                               |
| <b>Description</b><br>osmo-trx allows independent setting of rx_sps and tx_sps. However, the LMSDevice class simply ignores any rx_sps settings passed into RadioDevice::make(). |                               |
