Description			
Building gr-osmosdr from source fails with several bladerf conversion errors. I am on Ubuntu 16.04 with GNURadio installed through PyBOMBS. Failed `make -j12` output [here](https://gist.github.com/rytse/48550fcb29344d461a385aafefeeab8fb), list of installed packages [here](https://gist.github.com/rytse/9624d95413aac4d32deb34b1f8e8352b).
