

rtl-sdr - Bug #3590

Key Functions Missing Documentation

09/25/2018 01:04 PM - xloem

Description	
A few of the functions in rtl-sdr.h have no documentation.	
Personally, I have repeatedly called <code>rtlsdr_read_sync</code> to produce a stream of data in the past, but after inspecting the source and doing some testing I've learned that this data would have been corrupt, because of the time spent with no buffers in flight. I'd like to add documentation to this function indicating it is not appropriate for streaming, and it would make sense to document the other empty ones too.
