Description	
<p>The broadcast traffic mode was implemented for both M3UA and IPA in osmo-stp in libosmo-sccp.git af55d4a4a4368d20bc395a5c4712a612b7d954d7.</p> <p>Test already exists for STP_Tests_M3UA, but it's missing in IPA. This task is a reminder to add the test. Steps:</p> <ul style="list-style-type: none">• Copy and adapt the test from STP_Tests_M3UA similarly to how it was done for TC_tmt_override and TC_tmt_broadcast.• New ASPs and AS need to be added to docker-playground.git's ttcn3-stp-test/osmo-stp.cfg with broadcast traffic mode configured.
